20 MR. TILLOTSON: Scott, S-C-O-T-T, Tillotson,
21 T-I-L-L-O-T-S-O-N.

22 My statement is: Do Nevadans actually have a
23 voice or a say in whether or not this becomes a
24 reality? And it seems to me that by and large that the
25 public is not, not given information as to what's

0049

1 really going on. I don't know that anybody is really
2 getting that information and it seems like there is
3 just no, very little public notification and a lot of
4 people don't, I think, realize what's about to happen.

5 The information is not available. It is
6 available, I suppose, if people are going out hunting
7 for it, but it's not like it's any kind of front page
8 news. Everything else seems to take front page news
9 and this is a very serious matter and it seems like,
10 it's not like, well, here's the information -- like
11 there is a shark attack, it's front page news. But
12 something like the whole country's waste is being left
13 in Nevada and does anybody even know it's happening?
14 It seems like I speak to so many people, I don't even
15 realize what's going on. I don't know. It seems like
16 it's very hush-hush, let's just quietly do this and it
17 doesn't seem like people who live in this state have a
18 voice or an opinion in the matter. They just decided
19 this is what's being done. I guess that's it. And I
20 disagree with it. I don't think Nevada should be the
21 home of waste for the whole country. It doesn't seem
22 to be the democratic way. Doesn't seem to be a fair

23 way. Thank you.
